

Tuesday - 28 November 1950

1. Mr. Bob Lambert of the staff of the House Appropriations Committee called regarding appearance of the Director before the Committee. (See memo for the Director from WLP and memo from LRH this date).

2. Mr. Flanagan of the staff of the Senate Investigating Committee called to state that he had discussed with the Chairman, Sen. Hoey, the problem of publishing CIA homosexual figures, and the Committee desired to publish them or if not to footnote the fact that CIA would not make them available. I explained to him again our position in the matter, and that we considered their position a breach of faith insofar as we were concerned. I told him that no matter what they eventually printed by way of explanation, we would not authorize their release. This position was approved by the Executive, and I reiterated it on 29 November to Mr. Flanagan.
